

TEJAS SABUNKAR

Solutions Architect | Distributed Systems & Cloud-Native Architecture (AWS)

Bengaluru, India | tsabunkar@gmail.com | +91 9900888061 | linkedin.com/in/tsabunkar | tsabunkar.com | github.com/tsabunkar | youtube.com/@tsabunkar

PROFESSIONAL SUMMARY

Solutions Architect with 9+ years designing distributed, cloud-native systems — from enterprise-scale integration at Airbus to independently shipped serverless platforms built end-to-end on AWS. AWS Certified Solutions Architect – Associate. Pairs large-org architectural governance with hands-on full-stack delivery: designs the system, writes the Infrastructure as code, ships the Microfrontend, Microservice and documents the build publicly. Targeting Senior/Staff-level Architecture roles at product-first engineering organizations.

CORE TECHNICAL SKILLS

Architecture & Systems Design: Distributed Systems, Microservices, Event-Driven Architecture, High Availability & Fault Tolerance, API Design (REST), System Design, Architectural Governance

Cloud & Infrastructure (AWS): Lambda, ECS, API Gateway, SQS/SNS, EventBridge, DynamoDB, S3, CloudFront, SSM Parameter Store, IAM, Terraform (IaC), Docker/ECR

Languages & Frameworks: Go, Java, JavaScript/TypeScript, Node.js, React, Angular, Electron.js

Leadership & Practice: Cross-Functional Technical Leadership, Mentorship, Technical Documentation & Design Docs, Proof-of-Concept Evaluation

PROFESSIONAL EXPERIENCE

Solutions Architect — Airbus India *Apr 2025 – Present*

Bengaluru, India

- Architect cloud-native, secure solution roadmaps for 8 enterprise systems, translating ambiguous business requirements into delivery-ready specs adopted by Thousands of engineering teams.
- Own architectural governance and technology selection across 5th PoC evaluations per Q4/2025, which e.g., cut vendor eval cycle by 23%.
- Lead cross-functional delivery for systems supporting thousands of Airbus end-users, uptime of all european weekdays, with 0.02% latency.

System Architect — Airbus India *May 2022 – Mar 2025*

Bengaluru, India

- Designed low-level integration architectures across 15 enterprise systems, converting ambiguous requirements into developer-ready specs that shipped with zero major rework.
- Defined service-contract and interface standards adopted by 3+ product teams, cutting integration onboarding time by 47%.
- Mentored 3 engineers on design patterns and systems thinking, improving delivery velocity by 15 %.

Senior Lead Software Engineer — Airbus India *May 2021 – Apr 2022*

Bengaluru, India

- Served as technical anchor for 3 critical development projects end-to-end, owning requirement analysis and resolving severity production issues.

Software Engineer — Airbus India *Feb 2020 – May 2021*

Bengaluru, India

- Built production algorithms and scalable modules still operating in Airbus systems today, processing 700 transactions/day or zero critical incidents since launch.

Senior Software Engineer — Mindtree *Aug 2018 – Jan 2020*

Bengaluru, India

- Built a full-stack web application for Hilton Grand Vacations (Node.js + Angular) from scratch, taking it from requirements through production release.

- Built the companion application for the BOSE VideoBar VB1 (Electron.js) from scratch, shipped across millions of device configurations both in Windows and Mac.
- Mentored 18 graduate engineers into production-ready full-stack developers through the Orchard Kalinga program, 95% retained into project teams.

Software Engineer — Nous Infosystems *Apr 2017 – Aug 2018*

Bengaluru, India

- Delivered backend and frontend features for Healthcode (Java + JavaScript).
- Built a production-ready airline ticketing system from the ground up, 30 concurrent users.

CERTIFICATIONS & EDUCATION

- AWS Certified Solutions Architect – Associate
- B.E., Electrical & Electronics Engineering — Visvesvaraya Technological University (2012–2016) - securing 82%
